
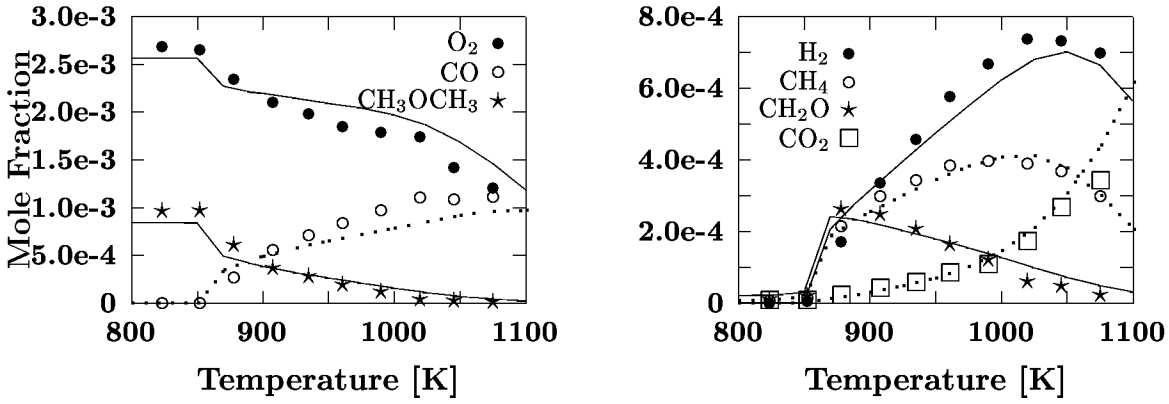

Figure 2: Experimental results (points) [19] versus model predictions (lines) at 0.1% DME, $\phi = 1.0$, P=10 atm, τ=1 s. Dotted lines correspond to open symbols

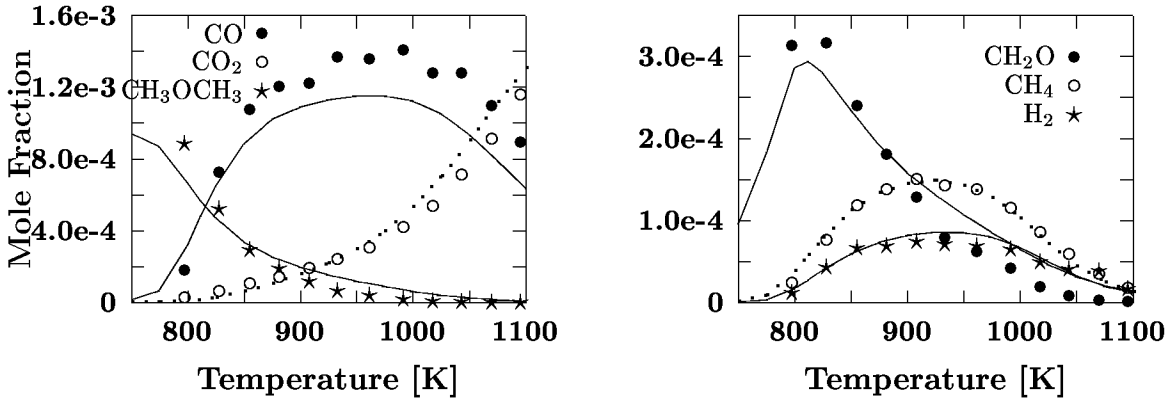

Figure 3: Experimental results (points) [19] versus model predictions (lines) at 0.1% DME, $\phi = 0.2$, P=10 atm, τ=1 s. Dotted lines correspond to open symbols
